Dear Ms. Bose,

I'm writing to you concerning Dominion's proposed development at Cove Point. I've been living in the area for 25 years, and I know that this county needs the benefits that will result in the completion of this project. Dominion has shown that there will be no difference in footprint or impact by moving from importing to exporting, and I'm inclined to believe them after all the detailed research and planning that they've done. The community will benefit greatly from such a boost to the economy, and it will allow for improvements such as better roads, park upkeep, etc. I'd like for the community to have the money to enable the high school swimming pool to be open to the public in the evenings. Please approve Dominion's plan, and make this community a better place.

Thank you,

Culver Ladd
